THE GROUNDS

WALK THROUGH THE GATE

A foggy forest, a cemetery under a black iron gate, and one crooked house beneath an enormous moon. Crows circle the towers. Lightning shows you things in the windows.

- **The Chapel Theater** stands beside the house, joined by a cloister, behind a garden of roses and weeping angels.
- **The Merch shop** sits across the drive, its windows lit.
- **The Crypt** in the cemetery hides an elevator down to the ride.

INSIDE THE CHATEAU

BLACK, WHITE & BLOOD RED

Marble checker floors, damask walls and a hypnotic spiral turning in the ceiling. Curved stairs climb to the balcony, and the wings open straight off the foyer.

- **The grand piano** plays a slow waltz by itself. The ghost at the keys turns to look at you.
- **Hauntings:** without warning a countdown starts and waves of ghosts come for you. Swing your scythe.
- **The Reaper's Relics:** six relics of the band hidden around the estate. Find them all.

INTO THE WEST WING

UP THE STAIRS

THE HAUNTED LIBRARY

Two storeys of stacks with a gallery all the way round. A ghost librarian drifts down the aisle with a candle, and books leap off the shelves as you pass.

- **The songbook:** every bookcase belongs to one of the band's songs. Open it to read the lyrics.
- **The Reaper's Ledger** at the far end starts the treasure hunt.

THE CHAPEL THEATER

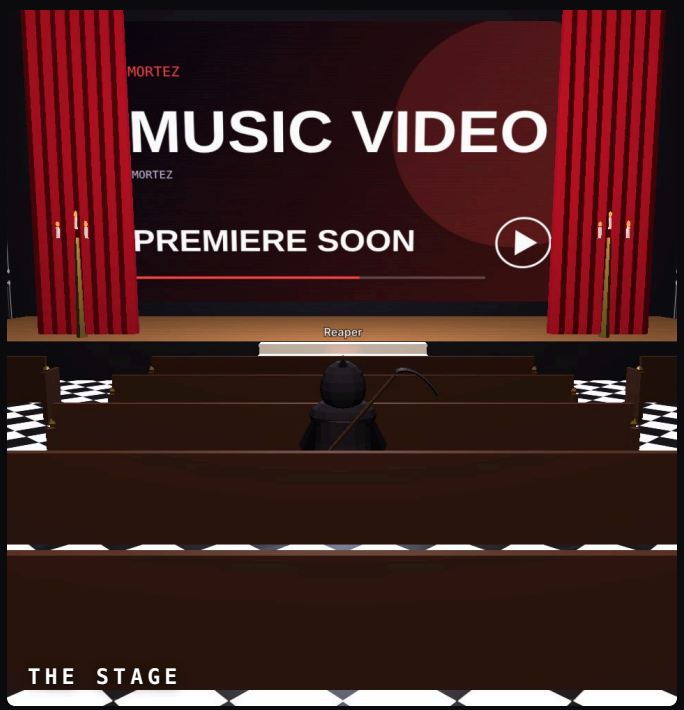

AN OLD CHURCH, AN OPERA HOUSE

Stained glass, ivory columns and red velvet. Stalls in three blocks, a horseshoe balcony with tiered pews, and stacked opera boxes beside the stage.

- **Take a seat** anywhere and the band's videos play on the great screen at the altar.
- **Coming next:** watch premieres together with everyone else in the room.

WEAR IT IN HERE. WEAR IT OUT THERE.

A real shop floor: a shirt wall, a hoodie rail, display tables, mannequins and a wall of vinyl. Walk up to anything to see it, pick a size and add it to your cart.

- **Coming next:** merch your reaper can wear inside the Chateau.

YOUR REAPER

PICK A REAPER. WALK IN.

Choose the Reaper or the Lady Reaper, name yourself, and you're through the gate. Walk and jump with a keyboard or a phone, with a mini map to find your way.

- **Brett and Rachelle** have their own official reapers, playable only by them.
- **The haunted hall** is a jump-scare walk-through behind the green arch, if you dare.
- **Admin switches** let the band turn hauntings, the hunt, lightning and more on and off.
- **Coming next:** everyone online together, sitting side by side in the chapel.
